Fast, convenient, economical and reliable; service concepts that any business would be mindful to instill in its operations, but ones that are truly the core of everything that Aloha Air Cargo has been known for decades throughout Hawaii. With cargo facilities at all major airport locations in Honolulu, Oahu; Kahului, Maui; Lihue, Kauai; and Hilo and Kailua-Kona on the Island of Hawaii, it is no wonder that Aloha Air Cargo is the leading air cargo carrier in the State.

Aloha Air Cargo had its beginnings as a unit of Aloha Airlines, the much loved passenger airline that served Hawaii from 1946 to 2008. On March 31, 2008, Aloha Airlines halted passenger service, but through the dedication of its employees, creditors, and the help of U.S. Senator Daniel Inouye, the airline's profitable cargo division was sold to Seattle-based Saltchuk Resources, Inc.

Today, Aloha Air Cargo's aircraft fleet consists of all Boeing aircraft, each with a cargo capacity of approximately 30,000 lbs. Aloha Air Cargo has 22 departures out of Honolulu daily, including service to every major airport destination within the State of Hawaii. Through partnerships with other Hawaii airlines and international carriers, Aloha Air Cargo can arrange shipments from any Hawaii city to any destination worldwide.

Aloha Air Cargo offers a wide range of services including Same Day Express, Overnight Freight and Loveable Pet Air Service, with the latest addition called Aloha FlexShip. This new service offering is geared for less time-sensitive cargo, with a 3-day pickup from the shipment time cutoff. No matter what the customers' needs are, Aloha Air Cargo prides itself on their ability to transport diverse products such as fresh bakery edibles, fish and seafood, produce, tropical fish, live animals, time sensitive shipments, cut floral and tropical fruit export products, general cargo and more. Aloha Air Cargo is the only overnight carrier to offer refrigeration capabilities at all Island locations, providing vital services for countless local Hawaii businesses to ensure timely delivery of their freshest Island goods.

Just having entered their second year as an independent company, under the leadership of company President, Mike Malik, Aloha Air Cargo has been rigorously reviewing every aspect of its business to improve the way they operate and serve their customers. With the pride and dedication of their tight-knit ohana, many of which are former Aloha Airlines employees, all are eager to support the communities they live and work within. Aloha Air Cargo is not only confident in their ability to transport anything as long as it fits in their planes; but a simple statement sums up their can-do attitude toward their customers' time-sensitive freight requirements... "Just tell us when."
